SIC Code	Industrial Activity	Subsector	Sector
Primary: 2741	Miscellaneous Publishing	X1 Printing and Publishing	X Printing and Publishing

**Facility Information**

Facility Name	Printing Services - U of MN -ISW
Owner Name	University of Minnesota Board of Regents
Street Address	2818 Como Ave
City State Zip	St. Paul, MN 55414
Size (acres)	0.01
County	Ramsey

**Facility Location**

Latitude	44.9878923
Longitude	-93.2136446
Determination Method	Digitized - Permit Application Map
Determination Date	4/15/2011

**Description of Industrial Facility Operations**

Activities include offset, digital, large format and variable printing, copying, binding and laminating.

**Owner Permittee**

Business Name:	University of Minnesota Board of Regents
Name:	Janet Dalglish , Environmental Affairs Coord.
E-mail Address:	dalgj006@umn.edu
Telephone:	612.626.7957

**No exposure to stormwater exists from any of the following:**

- 1: Using, storing or cleaning industrial machinery or equipment, and areas where residuals from using, storing or cleaning industrial machinery or equipment remain and are exposed to stormwater
- 2: Materials or residuals on the ground or in stormwater inlets from spills or leaks
- 3: Materials or products from past industrial activity
- 4: Material handling equipment (except adequately maintained vehicles)
- 5: Materials or products during loading or unloading or transporting activities
- 6: Materials or products stored outdoors (except final products intended for outside use, such as new cars, where exposure to stormwater does not result in the discharge of pollutants)
- 7: Materials contained in open, deteriorated or leaking storage drums, barrels, tanks and similar containers
- 8: Materials or products handled or stored on roads or railways owned or maintained by the discharger
- 9: Waste materials (except waste in covered, non-leaking containers like a covered dumpster)
- 10: Application or disposal of process wastewater (unless otherwise permitted) (If CURRENTLY UNPERMITTED, you must have an NPDES/SDS permit or authorization from your local wastewater treatment facility to continue this activity)
- 11: Particulate matter or visible deposits of residuals from roof stacks and/or vents not otherwise regulated (i.e. under an air quality control Permit) and evident in the stormwater outflow

Permittee certifies under penalty of law that they have read and understand the eligibility requirements for claiming a condition of "no exposure" and obtaining an exclusion from NPDES/SDS stormwater permitting; and that there are no discharges of storm water contaminated by exposure to industrial activities or materials from the industrial facility identified in this document.

Permittee certifies that they understand they are obligated to submit a no exposure certification form once every five years to the NPDES/SDS permitting authority and, if requested, to the operator of the local MS4 into which this facility discharges.

Permittee certifies that they understand they must allow the NPDES/SDS permitting authority, or MS4 operator where the discharge is into the local MS4, to perform inspections to confirm the condition of no exposure and to make such inspection reports publicly available upon request.

Permittee certifies that they understand they must obtain coverage under an NPDES Permit prior to any point source discharge of storm water from the facility. Permittee certifies under penalty of law that this document and all attachments were prepared under their direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted.

Based upon permittee's inquiry of the person or persons who manage the system, or those persons directly involved in gathering the information, the information submitted is to the best of permittee's knowledge and belief true, accurate and complete.

Permittee certifies that they are aware there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

This certification is required by Federal Regulation 40 CFR 122.26(g)(4)(iv).
